Fast, Friendly Family Service Lifetime Value – Lifetime Customers

Established 1946

We built our business through orders from thousands of satisfied customers

Foster is your first choice for cutters, trimmers, banner stands, filing systems, viewers and other graphic arts equipment:

1. We ship all orders fast- usually within 24 hours.
2. There is never any minimum order – just order the items and quantity you need.
3. Best Value. Our prices are competitive and our quality is unsurpassed. Foster premium products meet the highest standards in the industry. This is your assurance that you will enjoy many years of reliable, trouble-free service. You have our guarantee.
4. Our trained customer service department helps you purchase the right system. They offer solutions that solve problems.

5. Foster's national network of dealers has been selling our products for years and can provide you with total personalized service. They can help you decide on the right product, provide installation, service, training and problem solving. Call us at **1.800.523.4855** today for the name of a Foster dealer near you.

Industry Knowledge and Support

Our products are used in a variety of industries for many different applications. Foster is a proud member of these trade associations that are an excellent resource for information and technical assistance to help you stay competitive.

Satisfaction Fully Guaranteed

All Foster trimmers and cutters come with a 30 day no-hassle return policy, a 5 year general warranty on all parts (except blades and cutting wheels) and a 20 year warranty on the bearings used in the cutting head. All other Foster products are fully and unconditionally guaranteed to be free from defects and to perform as described for one full year under normal use.

The Ultimate Sheet Material Cutter

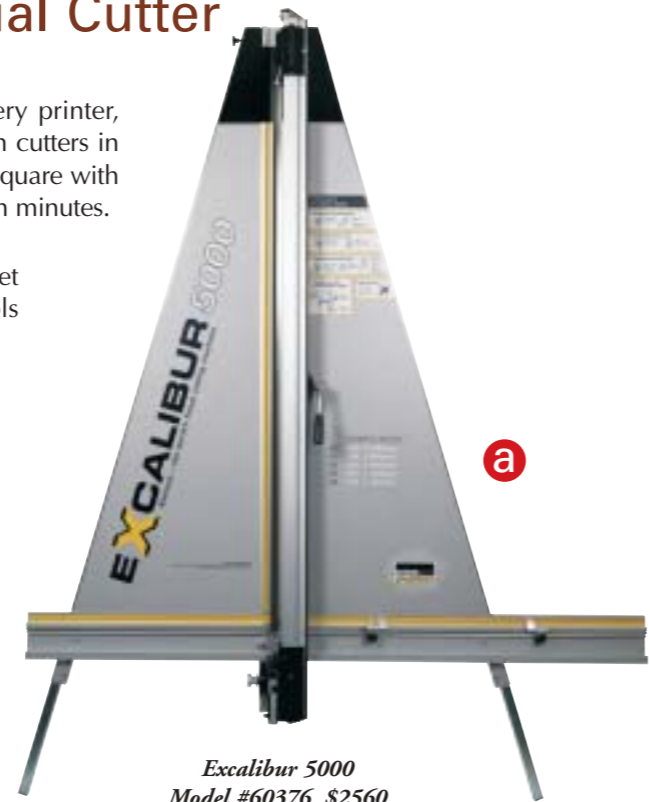

EXCALIBUR 5000

The Excalibur 5000 is the essential finishing tool for every printer, graphics, photo, sign and framing workshop. Four precision cutters in one trim a wide range of sheet materials accurately and in square with minimum effort. The Excalibur 5000 can be mastered within minutes.

The bottom cutting head is an ingenious indexed turret mounted that instantly locks any of the three cutting tools into position with no screws or tools required.

1. Standard medium duty utility blade for sheets of foamboard, gatorboard®, sintra®, corrugated cardboard, honeycomb plastics up to 1/2" thick.
2. Scoring blade for acrylics and other rigid plastics.
3. Tungsten carbide cutting wheel scores glass and mirrors up to 1/4" thick.

Excalibur 5000
Model #60376 \$2560
63" Cutter comes with Wall Mount Kit
Overall Size 84"W x 12-16"D x 96"H

The top Twin Wheel Cutting Head cuts 1/8" uncoated masonite®, mat board, .040 aluminum and 3mm Dibond®.

Excalibur's unique features deliver accurate, fast cutting with square clean cuts to the correct size every time, whether for one-off jobs or production runs.

One Piece Squaring Arm

You'll never have to shim up one side or the other to achieve a perfect 90° cut. The horizontal squaring arm is machined from one single heavy-duty aluminum extrusion so that both the left and right sides are in perfect alignment with each other.

Vertical Cutting Bar

When clamped down, there is no gap between the vertical cutting bar and the surface of the material being cut. It is steel re-enforced and won't bend or flex even when cutting dense thick materials like 1/2" Sintra® and gatorboard®.

Pressure Sensitive Clamp

Light clamping gives you the ability to line up the board to hold position, but allows it to be moved under the clamp for final alignment. The harder the clamping handle is pushed, the firmer the grip on the board.

Cutting Line Indicator

There is a clear plastic strip located along the left side of the vertical cutting bar that accurately indicates the cut line. When cutting to crop lines, pencil marks or edges of an image, your

site line is your cut line. All four tools cut along the same cutting line.

Ratchet Control

Are you working with extra dense materials like 1/2" thick Sintra® and gatorboard®? Say goodbye to saw marks and dust! Say hello to beautiful clean edges. The built-in ratchet allows you to cut these materials in multiple passes. Notch the cutter to the depth required, take the cut, repeat notching the cutter until the full depth is reached.

Flip Stops

Two flip stops make cutting to size easy. Flip stops can be engaged or disengaged without disturbing the settings. Accurate cutting by eye is made simple by the dual calibrated scales.

Counter-Balance (Excalibur 5000 only)

The counter balance takes the effort out of lifting the cutting head. When released, the balanced cutting head stays in the last position ready for the next operation. The counter balance weight can be transferred to the upper or lower cutting head with the flip of a switch.

Other Outstanding Features Included With Each Cutter

- Mounted to the wall at the top end only, two telescopic legs can adjust upon installation to suit the height of the user. To use the Excalibur in the middle of workshop floor, specify the optional free-standing kit.
- Squaring Adjustor Wheel at the top of the Vertical Cutting Bar provides easy and accurate 90° squaring adjustment.
- Large Back Panels on both sides of the machine give maximum support to the material being cut.

The Excalibur embodies the highest standards of engineering excellence combined with outstanding value for the money and backed by an unprecedented guarantee:

GUARANTEE

5-year comprehensive. 20-year free replacement on all bearings. 30-day, no hassle, money back.

Choose The Model That's Right For You

EXCALIBUR 1000

Perfect for cutting foamboard and acrylic

The Excalibur 1000 features a cutting head with interchangeable utility blade and plastic scoring blade. Also includes the ratchet control making it ideal for cutting rigid PVC up to 1/2" thick.

Excalibur 1000 and 3000
Cutting Head

Master the Art of Precision Cutting In Minutes

Foster Precision Cutters offer a standard of straight, square and clean cutting impossible to achieve with hand held knives and straight edges. Easy to use slide cutter design requires no special skills to operate. Simply position to the edge of your image or graphic, depress and pull the cutting head. The site line is your cut line, so you can achieve precision cuts quickly.

Safe...Perfect Cut...Easy To Use!

- Two full length silicone strips on the underside of each straight edge grips the surface of the sheet material without marking.
- Each cutter includes 100 standard medium duty utility blades that can be changed in seconds with tools.
- Comes with pair of wall mounted brackets for storing cutters out of the way.

Precision Cutters

a

a. MAX

Ideal for producers of grand format images. Unique box frame design provides straight clean cuts up to 200" guaranteed to be within .03" over the entire length of the cut.

b

b. PRACTIK

Accuracy guaranteed to within .03" over the full length of the cut. Practical choice for cutting graphics, photos and signs mounted on foam or gatorboard®.

c

c. JAVELIN

Factory laser truing guarantees accuracy to within .008" over the entire length of the cut which is essential for butt joints on sectional panels and pop displays.

Ergonomically contoured cutting head gives operator choice to comfortably push or pull along a cut.

Cuts foamboard, gatorboard® (up to 1/2" thick with optional XR long blades), honeycomb, corrugated plastics, vinyl, film, mat board and corrugated cardboard

MEDIUM DUTY

GUARANTEE

5-year comprehensive. 20-year free replacement on all bearings. 30-day, no hassle, money back.

BIG BENCH PRECISION CUTTING TABLE

Big Bench combined with the Javelin, Praktik or Max Precision Cutter creates the ultimate precision cutting table. The integral "Lift and Hold" mechanism on each side allows you to easily align and trim the largest work single-handedly.

Standard features ensure accuracy cut after cut:

- Adjustable leg levelers provide a firm and stable flat surface.
- A narrow groove in the table edge accepts the tip of the blade. There's no need for expensive, self-healing cutting mats.
- Full length silicone rubber strip mounted in the surface of the table edge ensures work is held perfectly in place while cutting and protects the most sensitive surfaces.
- Full length scale provided both in inches and metric.

Big Bench shown with Javelin Cutter

"Lift and Hold" Mechanism

Worktop Not Included

SURFACE MOUNTED LIFT & HOLD MECHANISM

Turn your existing work surface into a precision cutting station. Surface Mounted Lift & Hold Mechanism recommended for Javelin and Praktik cutters up to 80" in length.

Guided-Razor Safety Flexo Plate Cutter

FLEXO PLATE CUTTER

45° Beveled and 90° Cuts

Foster's new Guided-Razor Safety Flexo Plate Cutter gives straight, clean cuts every time with no exposed blades. Minimize the risk of injury and re-makes from bad cuts. Lift-Arm mechanism allows you to easily position plates for precision cutting with no second-guessing on the location of the cut. Comes with replaceable self-healing cutting mat with grid sheet that provides firm cutting surface.

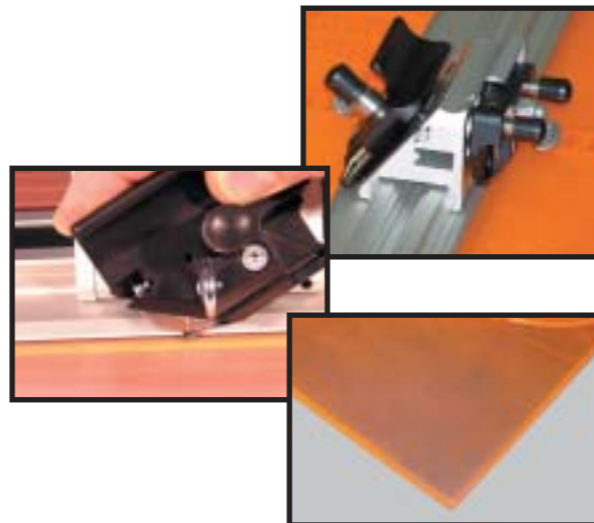

*Flexo Plate Cutter
Model #60812 50" \$995*

Unique Features Ensure Straight and Clean Cuts Everytime.

- Dual cutting head features both 45° beveled edge and 90° perpendicular blade holders.
- Each blade holder is spring loaded and retracts when not in use.
- Standard medium-duty utility blades are easy to change.
- Special tape on the underside of the straight edge grips & prevents plates from shifting.
- Available in 16", 32", 50", 64" and 86" cut lengths.

GENERAL PURPOSE CUTTER

Designed to cut a wide range of sheet materials, the General Purpose Cutter offers a standard of straight, square and clean cutting. It features blade depth adjustment and a cutter head, which automatically retracts to a safe position when not in use.

*General Purpose Cutter
Model #60731 60" \$855*

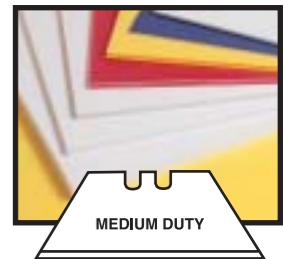

The innovative hinge and lift arm mechanism makes it possible to cut materials, which are longer than the length of the cutter. It also accepts materials of varying thickness without affecting the line or angle of cut, the latter always remaining perfectly vertical.

Superbly styled, the extruded and silver anodized aluminum base board incorporates a narrow groove to accept the blade tip when cutting.

A full length silicon rubber grip strip mounted in the surface of the base and two more on the underside of the cutter bar ensures all work is held perfectly in place while cutting and provides protection for even the most sensitive surfaces.

General Purpose Cutter will cut:

- PVC foamboard up to .25" thick.
- Foam centered board up to 0.5" with optional XR Long Utility Blade.
- Honeycomb and corrugated plastics.
- Vinyl and plastic film.
- Cardboard & corrugated cardboard.

Rotary Trimmers

DOUBLE ACTION ROTARY CUTTERS

Foster's Advanced Rotary Cutter is truly in a class of its own. Two tungsten steel cutting wheels give unrivaled performance and long life with two way cutting. Two clamp rollers double the gripping effectiveness of other rotary cutters.

There are no overhead guide bars to obscure the cut line. The unique sub-surface monorail bearing system cannot distort under heavy cutting pressure.

The Advanced Rotary Trimmer cleanly and precisely cuts everything from the thinnest tissue and film without tearing or folding, to flexible sheet materials, cardboard, plastics and paper. Built with a 15" deep extruded silver anodized aluminum base, Foster's Advanced Rotary Cutter will give years of peak performance.

Smooth Elegant Design... One Tough Cutting Machine

OPEN END ADVANCED ROTARY TRIMMER

Super long banners are now super easy to produce. Open ended design makes it easy to cut, seam and splice together banners of any length. Accurately trims up to 4" of material off the edge of a roll in one continuous cut. Materials are fed through the open side on one end, trimmed, then pulled through the other open side. Line-up the edge of the material to the cutting blade, and let the trimmer do the work. Clamping strip keeps materials secure ensuring clean accurate cuts every time.

TABLE EDGE ROTARY TRIMMER

Ideal wherever space is at a premium, the Advanced Rotary Trimmer turns your existing table into a complete print finishing station. Mounting plate with pre-drilled counter-sunk holes butts flush to the edge of your table.

Roll feed materials can be easily measured on the table surface then trimmed to size. For trimming large sheets up to 10' wide with minimal handling, mount a cutter on both the X and Y Axis of your existing table.

NEW!

CLASSIC ROTARY TRIMMER

Dual overhead guide bar and single cutting wheel is designed to cut slightly thicker materials. Full length metal end castings secured at 3 points on each side of the 15" deep all-aluminum base board provide years of productive use.

Paper feed on cutters 24" and above keeps clamping strip ridged and paper from shifting for a clean cut

Post'em Banner Stands

Looking for a fast, easy and professional way to display your banners and signs? Post'em Banner Stands deliver performance at an economical price. Board mounted and rolled graphics can be quickly mounted on the top and bottom support bars. Full length Velcro® keeps the graphics in place in high traffic areas such as trade shows, sales meetings, special events and retail locations.

- Tubular telescopic adjustable height center pole extends from 36" to 96" high
- Strong all metal aluminum and zinc construction
- Portable, quick assembly with no tools required.

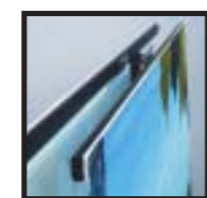

Contemporary boomerang shaped weighted zinc metal base breaks down for easy transport.

Trouble free clutch mechanism securely locks stand.

Top and bottom banner and sign support bars with full length Velcro®.

Double-sided Post'em Banner Stands let people see you coming and going.

CLASSIC BANNER STANDS

Versatile Design Lets You Display One or Two Banners, Foam or Gator Board Signs

Classic Banner Stands convey messages with a high tech look, easy set-up and infinite adjustments. Stand alone design features includes telescoping pole with aluminum clutch locks, heavy-duty square base and sleek styling. No notching or tools required for set-up. Bottom holder slides up and down the center column for adjusting tension.

Two designs accept most sign and banner materials

For hemmed banners, specify stand with dowels. For foam core mounted graphics, use without the dowels as a sign holder.

New! Presto Pop-up Displays

Lightweight, Stable 2-Minute Set Up

The new Presto Pop-up Display is the ideal system for displaying all types of graphics. A Standard Display includes a lightweight, yet rigid and stable frame, re-usable fabric background and carrying bag.

The background is one-piece fabric that won't tear or peel and attaches in seconds. It is designed for quick mounting and interchanging large format graphics, flyers, product brochures, posters and laminated inkjet prints with Velcro®.

Available in both Straight and Curved Back Walls, a complete display can be set up in minutes with no tools, pins, magnets or visible hardware, and packed up in no time.

Unique Design Features

- Pop-up frame is made of 30" square "Quads" with Velcro®, binding for attaching backgrounds.
- Displays available with and without end panels for covering quad frame hardware.
- Straight Back Wall displays available up to 12.5'W x 7.5'H, Curved Back Wall up to 10'W x 7.5'H.

3 More Benefits in Every Presto Pop-up Display

1. Presto Pop-ups are the only frames available with replaceable cross-braced aluminum round tubes!
2. Very competitively priced to comparable units.
3. Backed by a one-year factory warranty.

To use all three sides of your display, specify optional end panels to cover the quad hardware. End Panels add 23" to total graphic width.

FRAME

Presto Pop-ups are the only frames available with replaceable cross-braced aluminum round tubes!

FABRIC

Customers supplying their own full mural fabric backgrounds can save even more by specifying Pop-up Frames only.

HOOK N LOOP

Re-usable Velcro® background let's you add or subtract components as display needs change

SETUP WITH EASE

Each Presto Pop-Up includes a soft nylon carrying case.

More Great Ways To Handle Jobs From Start to Finish

CARRYALL FILES... THE NAME SAYS IT ALL

CarryALL Files are transparent Job Jackets with 5 pockets that hold, organize and help you keep track of all the elements of a print job. Two large pockets store full size prints, proofs, boards and plates. Three smaller pockets keep your job tickets, production work orders, disks, CDs and other media separate.

Made from durable, flexible low-static 12 mil vinyl and formulated with "CopyGard" to protect against copy lifting and ink migration. Stiff enough to stand on its own, it protects both film and paper from bending and curling.

- Strong enough to be stretched to three times its normal size without cracking, ripping or breaking.
- The bottom is double-seamed for longer wear.
- The protective closure is a soft flap with a unique, Low-scratch Velcro® fastener.

TWO-POCKET JOB WALLETS

Rigid yet lightweight, Two Pocket Job Wallets offer a practical solution for color coding by department, customer or job priority. Wallets open on the wide side for quick storage and retrieval with two full-length heavy-duty vinyl pockets that are sewn and metal reinforced. Corrugated plastic insert keeps materials upright to prevent folding and rolling. Rounded top corners won't catch when storing and retrieving from bins. Optional grommets can be added to hang wallets.

b

Now available in 2 sizes and 4 colors:
Blue, Red, Yellow and Black

MOBILE PRINT RACK

Keep All Jobs and Work-In-Process Visible, Organized and Protected

Tired of thumbing through stacks of jobs as they move through production only to find them with damaged or missing components? The open top design of the Mobile Print Rack lets you see and access all of your current jobs without excessive handling. Welded steel frame construction with 6 cross bars, 4 locking casters and baked enamel finish holds materials up to 36" wide. Priced to fit tight budgets, place one in each department as a pick-up station.

Overall Dimensions: 36"W x 18"D x 30"H
Model #70902 \$195

NEW!

HANG OR FILE POLY JOB ENVELOPES

Made of heavy-duty 7 mil translucent polypropylene, Poly Job Envelopes keep original jobs and documents safe and organized. They're bound and sewn on the edges with 12 mil vinyl. Reinforced zinc grommet for hanging. Two larger sizes have 2 grommets. Packed 25 per box.

Available 4 colors:

- BU = Blue
- RD = Red
- YL = Yellow
- BL = Black

a

STRONG SEE-THROUGH VINYL JOB JACKETS

Vinyl Job Jackets are idea for safeguarding and transporting bulky jobs. Made of strong 8 and 12 ga. vinyl, they expand up to 3" with an opening flap secured with Velcro® tabs. Folded and sealed sides add strength and resist tearing. Bursting strength rated at 5 lbs. per square foot of vinyl. Comes with removable hangers and hooks for storing in racks or cabinets. Re-use for the next job or place in archival storage for pick-ups and repeats.

b

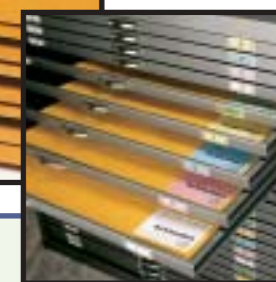

STOR-A-JOB ENVELOPES

Wide Opening Stor-A-Job Envelopes

Made of strong 40 lb. Kraft®, Stor-A-Job Envelopes wide opening with 2" top and bottom flap allows you to freely slide artwork, proofs and plates in and out with minimal effort. Each Stor-A-Job Envelope comes with a self-adhesive 5" x 4" contents label. There's plenty of room for the customers name, job number, dates and other important project information. Available in 17 sizes up to 49" x 37".

Foster Railex On Demand Graphic Arts Filing System

You need an efficient filing system to stay competitive in the on-demand printing marketplace. That's why the most successful printers today are choosing Foster Railex Filing Systems. The innovative hook-on hook-off file design allows them to quickly locate, retrieve and view the contents of each job without excessive handling or putting the other files out of order.

Each file is individually suspended, not sitting on a shelf where it can sag or spill out the contents. When you need a file, unhook it from the steel rail assembly with one simple motion. Metal hooks keep files firmly in place until

you lift them off the rails. Label holders are included with every folder to find jobs at a glance.

Foster Railex Filing Systems

- Store thousands of jobs in a limited amount of floor space
- Store different types and sizes of materials within the same cabinet
- Help quickly identify and access contents
- 13-gauge steel rail holds up to 500 lbs., won't sag under constant normal use

MULTI-TIER CABINETS

Increase Filing Capacity While Using Less Floor Space

Vertical cabinets hold 3-4 times as many files per square foot as flat files.

ROLLAFILES

RollaFILES Keep Jobs Moving through Production

RollaFILES are a convenient way to transport or to use as pick-up stations in each department. Made of welded steel tubing with heavy-duty casters and clear plexiglas® top to allow viewing of all job files.

For Files up to 40"
(18" Rail Assembly)

Model #22710 \$780
30"W x 18"D x 30"H
For All Single Rail Files

Whether you're storing a big job or a small one, Foster

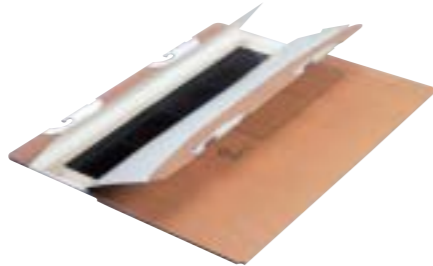

has the file that's right for you

1" EXPANSION GUSSET WALLET FOLDERS

Special features designed for busy production environments

- Weight is distributed on up to 4 steel hooks, prolonging the life of each file
- Double folded edges support hooks firmly
- 13-gauge steel rail holds up to 500 lbs., won't sag under constant normal use
- Metal finger grommets makes it easy to handle larger Wallet Folders
- Made of heavy .014 and .015 pressboard stock for longer wear
- pH neutral material is rated for long term storage

SUPERKRAFT FILM FILE

Internal compression flap keeps film from curling or bunching up

- The smooth white finish on the inside of the file reduces abrasion.
- Has a pH neutral archival rating for long-term storage.
- Made of sturdy .018 and .023 thick superkraft.
- Each Film File holds up to 50 pieces of film or 3/8" capacity.
- Creasing on one side gives easy access to contents stored within the file.
- Reference is by moveable front-facing plastic title tab which fits into slots on the front edge.

JK ECONOFILES

Priced to meet the tightest production budgets

- Made from marble board for light-weight material storage.
- Complete with staggered labeling.
- First dimension is the open side.
- Envelopes open on the back.
- Hook-on Envelopes store 5 sheets of material.

PRO FILES

Durable Hook-on Plastic Files

- Tough durable polypropylene material with high burst and tear strength won't sag or tear.
- Each file has 1-2 suspension hooks for distributing weight evenly.
- 5 sizes are interchangeable with all other styles of Railex Files.
- Available in clear translucent files for quick and easy identification of contents and light-tight black for U.V. protection

NEW! Comprehensive Filing System For Narrow Web Label Printers

2" EXPANSION GUSSET HOOK-ON WALLET FOLDERS

Hold up to 12 flexo plates 13 1/2"W x 10 1/4"H with room for press sheets, proofs and job tickets. There are no inner files or outer pockets to take up extra space and increase cost. Title tab holders are positioned at an upward angle for better visibility and quick identification of jobs.

- Each file comes with 2 metal suspension hooks

- Wallet Folders are made with marble board, an environmentally friendly, pH neutral material.
- Available in 3 standard colors: red, blue and gold

The Advantages are Clear with Foster Vinyl Envelope Files

VINYL ENVELOPES

Foster Vinyl Envelopes stand the test of real production settings. Filing everything from paperwork... to steel stencils... to screens, they "hang tough" for years. Each vinyl envelope is individually suspended by two removable hooks attached to a steel bar. Clear vinyl shows the contents of each job or an entire row of jobs without opening the envelope. To access materials, simply open the front facing flap secured by Velcro® tabs.

- Folded and sealed on 3 sides strengthen envelope and resists tearing
- Made of 8-gauge and 12-gauge vinyl
- Available in 7 sizes 12¾" x 17½" to 31½" x 43¾"

Jumbo Size Vinyl Envelopes made of 12 gauge vinyl hang tough for years

Shown with optional File Folders and #4 Index Tabs.

Vinyl Envelopes

Model #	Holds Material	Open Hanger Side	Open Hanger Side	Box of 25 Envelopes
6000-E	12½" x 17½"	14½" x 17½"		\$190
6010-E	16¾" x 21½"	18½" x 22½"		\$225
6001-E	19" x 17½"	20½" x 17¼"		\$220
6008-E	20¼" x 25½"	22½" x 25½"		\$240
6002-E	29¾" x 25½"	31½" x 25½"		\$285

Heavy Duty 12 gauge Vinyl	Box of 10 Envelopes
6003-E 29½" x 38½"	33½" x 39½" \$190
6004-E 31½" x 44"	33¾" x 44½" \$210

First dimension is the open side of envelope.

HANDY FILE FOLDERS

Heavy 11 pt. manila tag folders keep all the contents in the envelope together for quick storage and retrieval. Use two File Folders to separate plates and film, or multiple File Folders to better organize different versions within the same Vinyl File.

High Density Filing of All Your Artwork, Plates & Proofs

Stylish Cabinets Provide Added Protection - Blend In With Any Office Décor

Foster Vinyl File Cabinets take up less floor space than flat files and hold twice as much material. Modular design lets you add more filing sections easily and adjust height of suspension rails for storing different size Vinyl Files in the same cabinet.

Optional locking doors and backs enclose cabinets for dust-free filing and security. Made of 18 gauge steel with light beige finish.

Heavy-Duty Steel Racks Store Jumbo Size Vinyl Envelopes and are Moveable

Vinyl File Racks are for hard-use production and clean room environments. Sleek tubular steel design and the absence of shelves prevent dust build-up. Plated cross bars hold dozens of fully loaded vinyl envelopes in sizes ranging from 12½" x 17" to 31½" x 43¾". Optional casters let you move jobs from department to department. Available in grey powder coat finish.

Rack Shown with Optional Caster Frame

Z-STANDS

Stack up to 3 high

Clear Files with Z-Stands are ideal for use in studios and busy creative departments. Transparent Clear Files expose what's inside instantly and are designed to hold various types of media and graphics. They slide smoothly and silently on molded plastic hangers, which lock onto racks suspended from the Z-Stands.

Manufactured from sturdy 200 micron polypropylene, Clear Files are pH neutral, anti-static and non-stick for protecting photos, film, original art and other sensitive materials.

Z-STANDS
Stack up to 3 high

25898 \$775

Z-Stand comes with 25 #22898 26 1/2" x 18 1/2" 2-Compartment Clear Files. Z-Stand stacks up to 2 units high. Overall Size: 31 1/2"W x 16"D x 26"H

MULTIMEDIA CLEARFILES

Create a Stylish and Open Filing System

- Each Clear File contains a pH neutral white liner creating 2 storage compartments and carrying a file title.
- Slot tabs easily attach to the Clear File for indexing.
- Strong welds protect file contents from dust while a tuck-in front flap allows easy access.
- Add Velcro® Tabs to secure the flaps for storing bulky items.

\$175 per box of 250

A-FRAME PLATE TRANSPORTERS

Safely Transport Large Plates from Processor to Pressroom

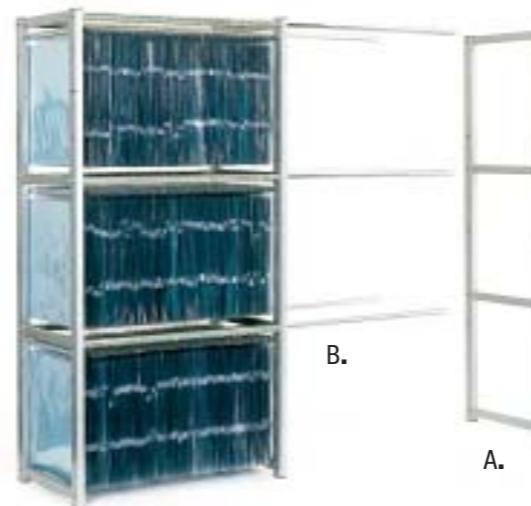

Plate Transporters are specifically designed to move multiple plates from the plate processing area, through Q/C and into the pressroom. The 1" wide deck by 1" high retaining lip on both sides keeps plates safe and secure when moving them long distances, from one floor to another, or into a staging area.

Common Features of the Staging Cart & Plate Transporter

- Two 48" x 48" 16-gauge steel skins on "A-Frame" structure.
- Two welded tubular steel push handles.
- Two swivel casters with locks and two rigid casters 6" x 2".
- Ships fully welded and assembled, ready to use.
- Neutral gray finish.
- Overall Size: 48"W x 30"D x 54"H.

Perfect Filing For All Your Media

Whether you're storing just one type of media or many, Foster has a filing system for you. Choose from two styles:

- Foster Railex Hook-on Hook-off CD/DVD files allow you to store up to 5000
- New Drawer Cabinets for CDs, DVD's, Video Cassettes and other size cases

Fingertip Filing For 1000's of CDs/DVDs

Hook-On CD Files are a convenient way to organize, file and get instant access to 1000's of CDs/DVDs. Choose from 3 styles of files in 2 sizes of Cabinets:

- Built-in title edge for quick identification of each job
- Die-cut finger access slot lets CDs slide easily in and out of the sleeve
- Extended corner seal keeps CDs secure within the file
- Made of long-lasting, hard wearing marble board
- Single suspension hook on all 3 styles

Compact Media Drawer File Cabinets Fit Right Next To Your Desk

Compact Multimedia Cabinets have four flush-front lockable drawers that open smoothly on easy-glide ball bearings. Each drawer can be divided into three rows to hold CDs and DVDs, or two rows to hold VHS cassettes. Total Drawer capacity is up to 120 CDs/DVDs, or two rows for up to 26 VHS cassettes. Inside Drawer Dimensions: 16 1/2"W x 16 1/2"D x 5 1/2"H. Overall Cabinet Size: 19 1/2"W x 18 1/2"D x 28"H.

9" Deep Cabinet Stores Hundreds of CDs/DVDs and Video Cassettes

When floor space is at a premium, Foster's CD Shelf Cabinet turns wall space into filing space. Only 9" deep, each cabinet can store up to 935 CD/DVD jewel cases in 11 shelves. A movable divider in each row compresses the jewel cases to keep them upright for easy identification and access.

- Completely enclosed sides and back safely secures all CDs and cassettes
- Constructed of heavy-gauge steel
- Each cabinet includes wall-tie

ULTRA SLIM MAGNIFIER LAMP

Comes with easily inter-changeable lenses

The Foster Ultra Slim Magnifier lamp is the only one of its kind on the market that includes two easily inter-changeable lenses: a 7" diameter lens (3 diopter 1.75X magnification) and 5 diopter lens with 2.25X magnification for greater magnification. Optional 8 diopter (3X magnification) and 12 diopter (4X Magnification) Swing Arm Lenses are available for more critical inspection.

The Foster Ultra Slim Magnifier Lamp is equipped with a 28 Watt tube for high light output and optimal viewing to minimize eye strain. Each lamp comes with counter-balanced spring arm that attaches to any table surface. UL approved.

Model #	Description	List Price
50064	Ultra slim magnifier lamp includes 7"(3-diopter) main lens and 2.25" (5 diopter) lens	\$245.00
50065	3" diameter (8 diopter) lens	\$28.00
50066	1.5" diameter 4.0x (12 diopter) lens	\$28.00

ERGONOMIC INSPECTION SYSTEM

This quality control tool helps you identify, analyze and resolve Q/C problems before they cost you sales and productivity dollars.

Recognizing the impact that human factors can have on productivity, Foster's Ergonomic Inspection System adjustable height allows your operators to examine plates, film and screens at an effective distance, without neck, eye or back strain. This is a real bonus for performance-oriented 24-hour operations, employing multiple operators and Q/C personnel.

The work surface has a range of motion of up to 47½" allowing inspection of any area on the surface of a plate or screen while standing. The magnifier-bridge also adjusts to eye level. A comfortable viewing position allows longer concentration and improves productivity.

Choose from 3 Styles and 2 Sizes to Meet Your Specific Inspection Applications

Front Illuminated for Inspecting Offset Plates

There are two sources of front illumination lighting: Magnifier-Bridge has a full-length 5000°K light tube. W.A.V.E. Lamp has two independently controlled natural balanced lights.

Backlit/Front Illuminated for Inspecting Film and Flexo Plates

In addition to the lighting provided by W.A.V.E. Lamp and Magnifier-Bridge, the surface of Backlit models are illuminated with 5000°K lighting for viewing the full sheet.

Backlit/Front Illuminated for Inspecting Screens

For screen inspection, specify the weight and overall dimensions of your screens.

Front Illuminated

DESKTOP VIEWER

True color matching at every stage of the job

Mini-booth design cuts distracting ambient light, allowing a degree of accuracy usually available only in full size floor models. Check color and match proofs to transparencies, original art and more without leaving your desk! Compact design fits almost anywhere. Three separate light switches control 5000°K back-lit viewing of transparencies up to 18" x 14" and two levels of overhead illumination for reflective art, press sheets and match prints.

Model#	Overall Size	Backlit area Dimensions	Frontlit area Dimensions	Price
38900	25½"W x 16"D x 24½"H	18"W x 14"H	24"W x 11"D x 16¾"H	\$1195

STANDARD COLOR-CORRECTED VIEWING BOOTH

Standardized viewing and color matching

Customers are paying more attention to details and expecting perfection every time. Keep them happy with Foster's Standard Color-Corrected Viewing Booths.

- Consistent 5000°K lighting, 95 Color Rendering Index and 175 foot candles at the viewing surface meets both ANSI and GATF color viewing standards.
- Overhead illumination for viewing prints, press sheets, proofs and masters. Dual light source provides overhead illumination and back-lit illumination for viewing film, transparencies and slides.
- 3-sided enclosure cuts ambient light for easy, reliable color evaluation.
- All-steel construction and munsel-8 powder coat paint finish lasts for years.
- Foster Standard Color Viewing Booths are Rent Free! They fit neatly over Foster Flat Files to provide color viewing with convenient storage in the same space.

UTILITY LIGHT TABLES

The Foster Utility Light Tables feature a steel frame with two deep shelves enclosed on both sides and back. Plenty of space for paper, tape and other graphic art supplies.

c

ADJUSTABLE-TOP LIGHT TABLES

The Foster Adjustable-Top Light Table improves your line of sight. Use the table with the top level or slant it to a comfortable 15-degree tilt. You'll work with less strain on your eyes and back because the amount of leaning over work areas is dramatically reduced. The foot rest helps prevent leg strain.

Optional shelf organizer #32015

Optional extension shelf #32003

LARGE FORMAT LIGHT TABLES

If you work with large presses you know accurate stripping is critical to keep your jobs in registration. Foster's Large Format Light Tables are built for strength and squareness. Using a unique channel design, these aluminum alloy tables are actually stronger than steel.
