

MINIMIZE DOWNTIME

daycorrTM

INCREASE PRODUCTIVITY

WITH

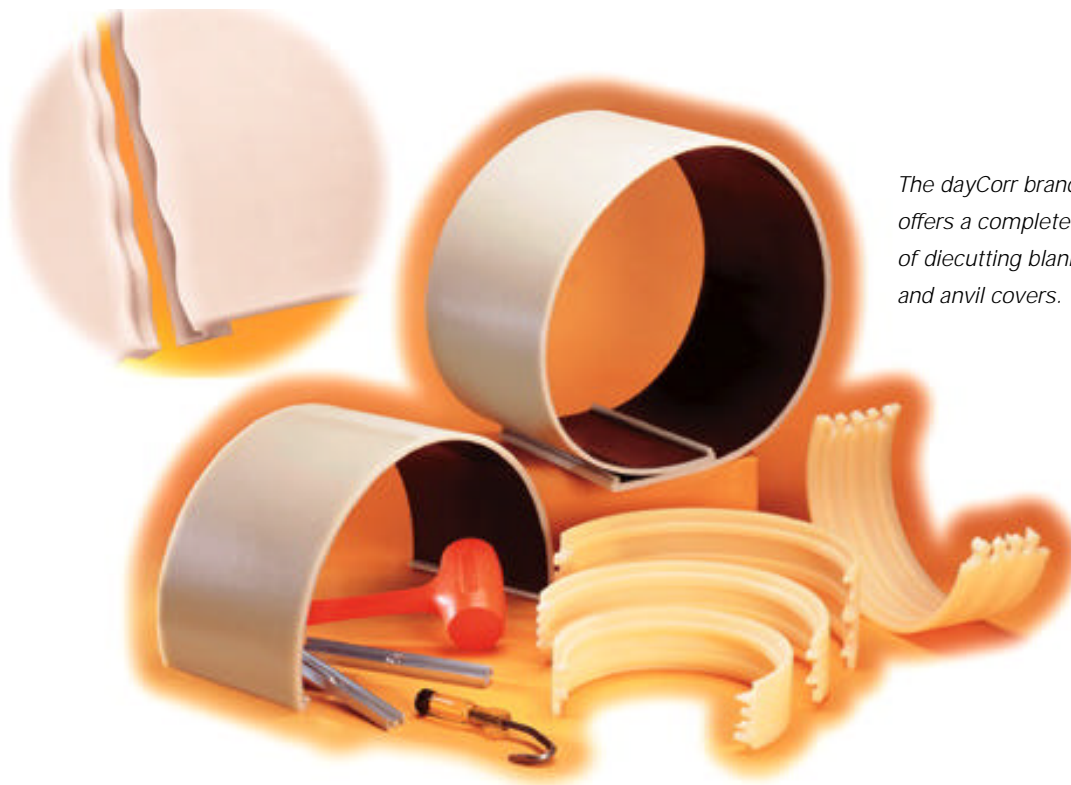

DIE-CUTTING BLANKETS

AND ANVIL COVERS

dayCorr is a brand of Day International — a leading maker of products for the printing, converting and corrugated industries. Backed by Day's extensive research and development and superior customer support, dayCorr is quickly becoming the choice of corrugators everywhere.

More convenience with less downtime and hassle. Plus, the best customer support in the business.

Get ready for decreased downtime on the presses ... and a big boost in production profits. Designed to reduce installation time and streamline rotation, dayCorr die-cutting blankets and anvil covers save you time and money.

The dayCorr brand offers a complete line of diecutting blankets and anvil covers.

The Diamond Loc Series — Cutting-edge performance you can count on.

The Diamond Loc

Designed for bolted-style cylinders, the economical Diamond Loc is ideal for virtually all die-cutting applications. Its tough, durable construction makes it a preferred choice of corrugators using bolted-style equipment.

Count on the Diamond Loc to help you:

- Increase productivity with a durable cast surface.
- Reduce distortion with the patented Diamond Loc mechanism.
- Gain peace of mind from a knowledgeable customer support team who's always there when you need them.
- Get fast, reliable delivery — with an extensive inventory that guarantees you always get your products quickly.

The Diamond Loc II

Designed for boltless-style cylinders, the Diamond Loc II can be used in either a standard or modified channel. Its quick and easy installation capability makes a rotation regimen easy to maintain — helping you reduce wear, extend blanket life, and increase profits.

Outstanding in durability and performance, the Diamond Loc II helps you:

- Minimize downtime and reduce costs with a user-friendly installation feature and convenient bi-directional design that make rotation a breeze.
- Increase productivity with a durable cast surface.
- Reduce distortion with the patented Diamond Loc II mechanism.
- Benefit from dayCorr's commitment to superior customer support — with expert representatives to answer all your questions.
- Get the products you need when you need them — with reliable, just-in-time delivery.

The ClamLoc™ — The smart choice for convenience and performance.

The ClamLoc™

Superior in convenience and performance, dayCorr's ClamLoc™ die-cutting blanket is sure to enhance your productivity, profits, and worker safety.

- A Serpentine Joint' provides easy-on and easy-off convenience. The patent-pending Serpentine Joint locks down firmly and stays securely in place — saving you from headaches or hassles.
- Easy rotation saves time and reduces cost. Unlike traditional blankets, the ClamLoc takes only minutes to rotate. You save time and money by extending blanket life and reducing downtime on the press.
- User-friendly installation promotes worker safety. Since the ClamLoc is easily installed with only a lightweight leather mallet, there's no need for heavy hammers or special tools. That means improved operator safety and fewer work-related injuries.

dayCorr Anvil Covers — Delivering the ultimate reliability and value.

Anvil Covers

Trust dayCorr to deliver the highest value in anvil covers. With 11 different styles to choose from — each varying in configuration and width — these tough covers are ideal for repetitive, high usage applications.

- Made to fit your needs — dayCorr can make customized anvil covers tailored to meet your specific production needs.
- Strong customer support — our knowledgeable and responsive customer support team makes us #1 in customer service.
- Products as fast as you need them — thanks to an extensive inventory that ensures quick delivery.
